

## Paper Of Lecturer Biology PPSC 19-06-22

### Description

Paper Of Lecturer Biology PPSC 19-06-22

1. Qazi k ghr k ..... b syany hoty hn
2. Nehru report was given by
3. (Anything.....anybody) Something....?
4. Sexual reproduction. In plants was discovered by?
5. Molluscs example not included (konsi wxample ni h)
6. Fruit ripening hormone
7. Hormones not secreted by pituitary gland
8. Dengue causing agent
9. Disease causing agent....trypanosoma
10. Fight or flight is type of
11. Changes in msngr RNA after formation in eukaryotic
12. Mrna formation takes place in , mitochondria, nucleus, none of these, chloroplast
13. Cri de.... disease is due to which chromosome no.
14. Chromosome term was given by
15. Mghabreen ka mutaradaf
16. 0.7 homozygous dominant h to heterozygous kia ho g
17. Which option is not available in slide layout
18. Single user system (windows, Linux )
19. Water is liquid at room temp because of
  - H bonding
  - Vandr wall forces
  - CovInt bond
20. Chromosomal theory given by
  - Sutton
  - Boveri
  - Both
21. Polysacchride in bacteria nd yeast is
  - Starch
  - Cellulose
  - Glycogen
22. Who sequence insulin
23. First vaccine formed by recombinant dna technology (HIV, HAV, HAB, NONE)
24. anticodon lies on
- 25.anticodon of GCA
25. Mollusks live in...
  - A... Marine
  - B.. terrestrials
  - C... Fresh water
  - D... All of these

26. A r b ka age difference 6:5 h after 8 years b ki age kia ho g?  
28 ek r math ka qstn tha uska ans 0.5 each year h
27. Multicellular distinguished generations are found in(hepaticopsida, moss, anthocerotopsida, all)
- 29.ek karachi ki Masjid ka pocha kb complete hwi
28. These women are not in committe (into, over,to, of)
29. ek indirect tha (he told that ... js me was tha r long option tha wo theek tha
30. In sugar cane which pathway is found hatch and slack
- 33.Tirch meer is tha highest peak of....
- 34.Peace of war?? Tolsty
31. Consecutive 0.34 NM diatance in DNA
32. Non vascular plants??
33. Zig zig chromatin pattern is due to nucceosome histone core histon h1
34. Mining by using bacteria ...
35. Asymmetrical ... Sponges
36. Which layer involve in pearl formation ...
37. Two polypeptide join to form which structure ... Primary secondary tertiary quaternary
38. ABO express itself completely in IAIB which type of dominance it is?  
Crist du mutations occur in which chromosome?
39. Catherine palace is in?
40. Which is not used to analyse protein structure(MRI NRI electron microscope options)
41. Sugarcane annual yield in pakistan
42. Which is autosomal non disjunction?
43. Features of insects?
44. Law of independent assortment follows(9.3.3.1 ratio)
45. Poor man ka koi law shyd pesh kia gia tha wo kis finance minister ny 1946 me dia
46. Pair of Sex chromosome in humans
47. Crossing over takes place in?
48. Meaning of gymnosperm?
49. Polygenic inheritance?
50. Peace of war written by?
