

Software Engineer 2022 Past Paper

Description

Software Engineer 2022 Past Paper

1. CPU scheduling Types 2.
2. Algorithms example Round Robin etc are of Scheduling Algorithms.
3. When Quaid Joined Congress
4. Name of book published after demise of Allama Iqbal. Armughan e Hijaz
5. Name of book in which National Anthem is mentioned.
6. Names of Real Time OS. All are correct
7. Average of age of 3 boys is 15 and ratio is 3:5:7, Find the youngest one's age.
8. Triggers in Oracle Database. Both. :New and :Old
9. How polymorphism cannot be implemented.
10. DDL type.
11. DML type.
12. SEATO stands for.
13. Definition of Throughput
15. Imam Abu Ghazali Born in Iran.
16. Which is not example of System Software. MS Windows
17. Packet Switching is used in which of Options.
18. Which is Output of Lexical Analyzer. Tokens
19. Assembly language is converted into Machine Language through.
20. SFA in Compiler?
21. What is general term used for study of tools / methods to study human brain?
22. to Fine number series 1,3,7,13,? Which is needed. Sorting, Computer, intelligence.
23. English, she is going to gym this evening.
24. Colon is used to represent.
25. Original cost is 75 which is increased 20% and than decreased 20% again. What's price now?
26. Size of IPv6 IP Address.
27. Which is not example of Queue? IsFull() IsEmpty() Dequeue
28. Which are examples of Database Softwares?
29. DBMS softwares include to manage.
30. Query Optimization
31. The Bus which controls data between CPU and Memory is called?
32. Memory Mapping
33. In 1919 Germany was declared... Restrictions were imposed.
34. A process continues its state until a CPU burst occurs or it goes into waiting state.....
35. Dasu Dam is being built on which river?
36. Which is..... Last option was Google and correct.
37. Recursive method is better than Iterative method due to...
38. Merge sort can be implemented by...
39. Time Complexity something like, last option Log.
40. Class has size of..

41. In relational Algebra the Cartesian Product is Binary Operator.
42. Formula for DRE Defect Removal Efficiency.
43. Formula for Defect Removal.
44. Waterfall model is used when
45. The number of software engineers *is* increasing day by day.
46. Very first program to start on system boot is *bootstrap*
47. 2^{16} can save 65536 numbers.
48. Private means only *member function* can access data.
49. In Linux Absolute path starts with *root directory*
50. Compiler identifies keyword during?
50 Primary key can be *composite*
51. Has relationship is to describe that an object is contained
52. Inventor of WWW. Tim Berner Lee.
53. Link Colour before visit. Blue.
54. Why Quaid left Congress.
55. Online Shopping is an example of.
56. Latest HTML is 5.0
57. Hit and Trail is example of Test*.
58. Functional Requirements. None.
59. Unethical Email categorised as Spam.
60. Database Command to check username.
61. Online free software repair name is. Patch.
62. Cost Management. Change Control.
63. Software Engineers shouldn't use their expertise to.
65. Use code. Unauthorized access something.
66. Device to monitor network traffic. Sniffer.
67. Wakhan corridor.
68. When a file is deleted with shift + del it goes to.
69. UML diagram
70. Use case components. Use case and actors.
71. Drilling into data to find useful patterns is. Data Mining
72. Every human cell contains how many pairs of chromosomes. 23
73. Which device used to speed up data transfer rate from server to user. Proxy server.
74. Regular expression of $ab+aab^*(aabb)$
75. Sadqain was famous for calligraphy
76. What is not correct about Turing machine? a. generate symbols b. continue or halt
77. Address translation from Virtual to Physical address is the function of which unit of CPU?
Memory Management Unit.
78. which of the following is FALSE with respect to possible outcomes of executing a Turing Machine over a given input?"
