

9th Class Physics Guess 2023 All Punjab

Description

9th Class Physics Guess 2023 All Punjab

Guess 2023 All Punjab Class 9th Physics

Plasma & geo physics, base & drived quantities. prefixes, least count of Varnier stop watch, scalar & vector, speed & velocity, momentum, mass & weight, inertia, methods of reducing friction, banking of road.like & unlike prallel.regid body, moment arm. Centre of mass& gravity.couple equilibrium & states. gravitation law, gravitational field strength, geostationary orbit joule,k.E,soil erosion,efficiency.power & watt.kentic model.plasma.pressure.application of Pascal law.upthurst force, stres, deforming force, hooks law, thermometer and liquid properties, lower & upper fixed point, specific heat, latent heat of fusion.coefficent of linear and volume expansion, evaporation.convention.conduction.radiation, sea shosting. breaze.convention currents in air.

LONG QUESTIONS

Types of motion, Equations of motion, scalars and vectors, newton 2nd law, force & momentum, law of conservation momentum, resolution of forces, states & conditions of equilibrium, mass of earth. gravitational law, artificial satellite, Pascal law, arch. principal, pressure in liquid, linear & volume

expansion, evaporation

3.3.3.5.3.8.3.10.6.3.6.6.6.8.6.10.2.1.2 3.2.5.2.7.7.6.7.8 7.4.7.12.8.1.8.3.8 5

Long scheme physics.

Q# chapter 2 long+ chapter 3 numerical.

Q# chapter4 or 5 long + chapter 6 numerical Q# chapter 7 or 8 long + chapter 8 or 7 numerical
